

CONSULTING

Supply Chain Services

realize your global possibilities

BENEFITS

- Improve margins and customer satisfaction
- Decrease end-to-end supply chain and operating costs
- Accelerate time-to-market
- Positive market share growth

What is Supply Chain Consulting?

GlobalWare Consulting Services will analyze and evaluate your current end-to-end supply chain and provide recommendations that will identify your risks and uncover opportunities to improve and streamline your operations. From procurement to production and from distribution to returns management, GWS has the expertise to help you optimize your complete global supply chain.

Why GlobalWare?

GlobalWare's expert consultants will work with your organization to perform an analysis of your existing activities, identify areas where improvements can be made and support the analysis with cost/benefit of implementation. GWS is always responsive and flexible to meet your needs.

- **Supply Chain Analysis** - Identify inefficiencies in your supply chain and suggest improvements and customized solutions to enhance your end-to-end supply chain management processes
- **Business Process Outsourcing** - Allows you to focus on your core business and competencies while continuing to increase your service and reducing costs

- **Business Solutions Design** - Analyze your existing infrastructure and relationships and recommend a customized solution that will derive the optimum advantage from all available resources while ensuring best in class processes

Key Components:

- Customized solutions unique to meet your specific supply chain requirements
- ISO 9001:2000 certification and process expertise
- Align business strategy and operational efficiencies to improve overall business performance
- World class service and support expertise

GlobalWare Advantage:

Improvements to your end-to-end supply chain organization focused on your specific business goals that will return measurable results:

- Improve margins
- Decrease supply chain and operating costs
- Accelerate time-to-market
- Grow market share
- Add new revenue streams
- Increase customer satisfaction
- Ensure high level of consistency and quality of recommendations with ISO 9001:2000 certification
