DATASHARE™
Supply Chain Services

realize your global possibilities

BENEFITS

- Reduce administration costs
- Enhance corporate communications
- Real-time document control
- Create new revenue when combined with e-Commerce activities

What is DataShare™?

GlobalWare Solutions Digital Information Management Center, DataShare™, provides customers a 24x7 state-of-the-art digital storage and management service to securely and efficiently manage digital documents, text files, catalog pages, labels, CD and DVD's, illustrations, high-resolution graphics, layouts and completed projects stored in a secure database.

Why DataShare™?

DataShare™ provides a central base of operations for people working cross-departmentally, cross-functionally or across multiple locations or geographies. The system's powerful and flexible features allow businesses to:

- Streamline design, production and approval cycles
- Maintain digital libraries for internal and external customers
- Manage corporate brand assets and collateral
- Real-time access to updated documentation

Key Components:

- Plug and Play - standard web browser required for global deployment and access
- Assigned administrator retains total control over per-user or per-group permissions
- Secure access validated via login with user name and password
- Global localization allows for in-language activation on a per-user basis
- Customized interface to complement company branding
- Over 25 supported file formats, including PDF and QuarkXPress
- Archive older documents to retain for future use or to comply with regulatory mandates
- Increased business efficiency

GlobalWare Advantage:

- Centralized repository for corporate documents
- Ensure compliance with corporate branding
- Reduce administration support costs
- Improve corporate internal and external communications whether across town or across the globe
- Integrate with e-Commerce capabilities to allow for the creation of new revenue stream
