

### BENEFITS

- Complete view of your supply chain
- Real-time data visibility
- Reduce costs through improved information management
- Extensive data warehouse for reporting

### What is GlobalView™?

GlobalView™ is an industry leading, web-based reporting tool that provides real-time visibility to your worldwide supply chain. The powerful combination of monitoring, management and data warehouse functions open a clear window into the current and historic status of your business.

GlobalView™ links information from all our facilities in North America, Europe, and Asia Pacific so you can focus on proactive management and planning rather than chasing data.

### Why GlobalView™?

- Custom Business Processes
- Flexible Permissions
- Timely Information
- Messaging and Alerts
- Complete Sales Order Management
- Comprehensive Product Information Visibility
- Serial Number Capture
- Delivery Tracking
- Online Paperwork Images
- Inventory History
- Reverse Logistics

### Key Components:

- **Complete Supply Chain View** – Sales Orders can be entered, tracked and managed directly online
- **Complete Product Information** – Online visibility to PO's, receipts, ownership, bills of material, shipment history and allocations
- **Serial Number Capture, Validation, Management & Reporting** – End-to-end data capture and reporting throughout the manufacturing and fulfillment processes ensures that each serial number is exclusive
- **Customization** – Define rules based on your unique requirements to view data or allow for messages and alerts indicating stock-out, delivery or status report to designated parties

- **Comprehensive Data Warehouse** – Current and historical data, and inventory snapshots allow for tracking and charting to improve forecasts
- **Online Documentation** – Packing lists, commercial invoices, delivery tracking and other paperwork available

### GlobalWare Advantage:

- Complete visibility throughout your global supply chain
- Capture data from the time your product is received into inventory through delivery to your customer
- Efficient materials and product management
- Reduce costs
- Improve customer satisfaction
